**Response to the Standing Committee on
Government Operations**

Review of the Official Languages Act

October 2009

GOVERNMENT OF THE NORTHWEST TERRITORIES
RESPONSE TO THE STANDING COMMITTEE ON GOVERNMENT
OPERATIONS' REVIEW OF THE OFFICIAL LANGUAGES ACT

Introduction

The Government of the Northwest Territories acknowledges the time, effort and commitment provided by the Standing Committee on Government Operations' Review of the Official Languages Act. The review is important for all of us who share an interest in the health and vitality of each of our official languages in the Northwest Territories. The final report *Reality Check: Securing a Future for the Official Languages of the Northwest Territories* provides many valuable recommendations for the Government of the Northwest Territories to consider in making improvements to support official languages. The Government of the Northwest Territories agrees with the Committee that the breadth of the recommendations and their meaningful implementation will take some time.

As the Minister responsible for Official Languages, I have the privilege of stating the Government of the Northwest Territories' commitment to improving our supports for official languages in the Northwest Territories. Making improvements will have many challenges but I believe that we can rise to those challenges by working together. We must all share in the work in order that we can make our languages healthy and make their use an everyday reality in our communities, our homes and in the services that are provided by the Government of the Northwest Territories. We all have an important role to play whether we are government, parents, grandparents, community leaders or individuals.

Moving Forward

The Government of the Northwest Territories is developing an Official Languages Strategy that will include implementation plans for the support of each official language. The development of the Strategy and implementation plans will be informed by the recommendations of the Standing Committee on Government Operations as well as by other reviews and evaluations that are underway under the lead of the Department of Education, Culture and Employment. These include an evaluation of the French Languages Single Window Pilot Project, an evaluation of the current Aboriginal Languages Strategy, research into service models for Aboriginal languages, an evaluation of the Aboriginal languages components of the Canada-Northwest Territories

Cooperation Agreement in Official Languages, and the development of a comprehensive implementation plan for French Language Services.

It is important that the development of the Official Languages Strategy and implementation plans address the needs, priorities and circumstances of each of our official languages. Therefore consultation and ongoing engagement with each of the language communities and practitioners is vital for helping to identify plans and actions that meet the goals and objectives that are important for each language. As part of the overall consultation process, the Government of the Northwest Territories will host a language symposium in 2010 to articulate a comprehensive strategy and development of implementation plans for each language. As we develop the Official Languages Strategy and implementation plans, we will also work closely with the federal government to seek their support.

The input of regular Members in the overall approach is important. As such the Government of the Northwest Territories is discussing with Standing Committee on Government Operations (SCOGO) the possibility of forming a committee made up of representatives of SCOGO and the Executive Council to provide input and oversight into the Government of the Northwest Territories support for each of the official languages of the Northwest Territories.

Consideration of SCOGO's Recommendations

As the Government of the Northwest Territories proceeds with the development of an Official Languages Strategy and implementation plans, it will give full consideration to each of the recommendations SCOGO brought forward for consideration. Our assessment of the various recommendations has identified that many of the recommendations fit well with the principles of our proposed strategy while other recommendations are more challenging particularly those that entail substantial fiscal and human resources..

The Government of the Northwest Territories is not providing a detailed response to each recommendation at this time to ensure that we do not bias the development of the Official Languages Strategy and implementation plans that will involve ongoing engagement and consultation with language communities and practitioners. As well, SCOGO recognized that many of its recommendations will take some time for meaningful implementation through the development of plans. However, there are a number of interim measures that the Standing Committee identified in its final report as important to address the most urgent needs of the Aboriginal language communities and the most obvious shortcomings of the existing *Official Languages Act*. Following is the Government of the Northwest Territories assessment of the interim measures identified by the Standing Committee.

Transitional Provisions:

42. Improve service delivery in Official Languages

Response: The Government of the Northwest Territories is committed to service delivery improvements. Improvements will be identified through the consultation and ongoing engagement with each language community.

43. Provide increased financial and capacity supports to community language groups including multi-year funding agreements

Response: Specific investment needs will be identified through the consultation and ongoing engagement with language communities. Budget proposals will be submitted to the Legislative Assembly for consideration as well as to the Government of Canada through the Canada-Northwest Territories Cooperation Agreement on Official Languages.

44. Improve communication and consultation with the community language groups and their organization

Response: This will be a component of the ongoing consultation and engagement process.

45. Conduct Aboriginal language community consultations to prepare for the establishment of the Aboriginal Language Centre in the fiscal year 2010/2011

Response: Consultations will take place with the Aboriginal language communities.

46. In the interim make the following amendments to the existing *Official Languages Act*

46.1 Languages Commissioner

46.1.1 Include NWT residency as statutory requirement

46.1.2 Include minimum requirements for community outreach to promote Official Language rights and the Act itself

- 46.1.3 Review whether the existing *Official Languages Act* sections on investigations by the Commissioner's on his/her own initiative, need to be clarified or strengthened
- 46.1.4 Review whether additional powers for the Languages Commissioner to audit government agencies for their implementation of OLA, would strengthen the ombudsperson function of the Statutory Officer

Response: The Cabinet representative on the Board of Management will bring the Committee's recommendations concerning the Language Commissioner forward for the Board of Management's consideration.

46.2 Official Languages Board and Aboriginal Languages Revitalization Board

- 46.2.1 Amalgamate the two Languages Boards into one Aboriginal Languages Board (ALB) that will provide the link between the Aboriginal language communities and the Minister responsible for Official Languages
- 46.2.2 Change the appointment process by broadening the list of organizations who nominate representatives of their Language Communities. The intent is to involve a more diverse group of language stakeholders in the nomination process
- 46.2.3 Clarify the Aboriginal Languages Board's mandate, powers and its relationship with the Minister in the *Act*.
- 46.2.4 Include a description of the roles, responsibilities, competency requirements and compensation/per diem schedule in the Regulations establishing the Aboriginal Languages Board
- 46.2.5 Include requirements for board members to consult with their communities and stakeholders.

Response: The Government of the Northwest Territories believes that it is important for each language community to provide advice to the Minister responsible for Official Languages. In considering the recommendation to form a single Aboriginal Language Board, the Government of the Northwest Territories will also work with the Francophone community to identify an advisory process for French language needs and priorities. Changes to the Official Languages Act may come after languages community and stakeholder consultation. In the meantime, the Government will work with members of existing board to ensure they are consulting with their communities and stakeholders.

47. The Minister responsible for Official Languages shall include a detailed progress report on the implementation of the recommendations of the Standing Committee on Government Operations contained in its Final Report on the Review of the *Official Languages Act* 2008-2009 in his Annual Report on Official Languages

Response: Detailed responses to SCOGO's recommendations will not be ready to be included in the October 2009 Report on Official Languages. However, the Government of the Northwest Territories plan will include updates on the various recommendations that become part of the overall Official Languages Strategy and implementation plans for subsequent annual reports.

48. The GNWT shall communicate with the Committee on the progress of the development of the proposed Official Languages services regime and the Aboriginal languages protection regime

Response: The Government of the Northwest Territories will keep Committee members informed on progress on matters related to official languages that are covered in the Committee's recommendations.

Additional Responses:

In addition to responding the Transitional Provisions, the Government of the Northwest Territories is pleased to respond to the following recommendations at this time:

10. Acknowledge continuous Aboriginal Language loss, endangerment resulting in a need for protection and revitalization.

Response: Agreed.

40. Future NWT Community Surveys shall include information on mother tongue and home language to allow for improved tracking of language shift in particular for the Aboriginal languages of the NWT. The tracking of language shift every two to three years could be an important indicator to evaluate if the revitalization measures put in place are successful.

Response: Agreed.

22. Make strategic and implementation plans for Official Languages Services and Aboriginal Languages Protection publicly available.

Response: Agreed and they will be made publicly available upon completion.

14. Affirm relevance of the languages communities for the use, maintenance, revitalization, protection and modernization of their respective languages.

Response: The Government of the NWT will reinforce this message with the language communities.

33. Conduct government wide human resources planning for the service delivery model to address Official Languages services obligations of the GNWT.

Response: Agreed.

34. Use the Corporate Human Resources Strategic Plan currently under development by the Department of Human Resources to determine the GNWT's capacity to deliver services in the Official Languages.

Response: Agreed.

37. Conduct an education campaign for all GNWT staff on Official Language services and Aboriginal Language protection.

Response: Agreed.

38. Provide an Official Languages service delivery and communication manual for all staff setting out minimum standards including for an "active offer".

Response: Agreed.

The attached table (Appendix A) contains preliminary responses to SCOGO's full list of recommendations.

Following a comprehensive program of consultation with languages communities and other stakeholders a full response to SCOGO's report, *Reality Check: Securing a Future for the Official Languages of the Northwest Territories*, including implementation plans, will be tabled in the Legislative Assembly during the fall 2010 session. The response will provide details on how the SCOGO recommendations fit into the Official Languages Strategy and implementation plans.

Government of the Northwest Territories Preliminary Response to the Standing Committee on Government Operations Review of the Official Languages Act:

Reality Check: Securing a Future for the Official Languages of the Northwest Territories

Recommendations

The Terms of Reference allow the Committee to make recommendations for amendment to the Act that it considers desirable. Based on its findings and conclusions the Standing Committee on Government Operations makes the following recommendations to create

- a new “*Official Languages Services Act*” with a focus on service delivery, and
- a new Aboriginal Languages Protection Regime that focuses on protection and revitalization of Aboriginal languages.

The Committee is aware of the breadth of its recommendations and that their meaningful implementation will take some time. As a first step thorough strategic planning must take place, including an analysis of the fiscal requirements for the implementation of these plans.

The Committee did not see its task as developing strategic or implementation plans on behalf of the Government. Instead we have provided and a foundation for what must be addressed in those plans. We recognize that the Government also needs to address challenges related to human and fiscal capacity and resources during this planning process. The Committee has left room in its recommendations allowing the Government to be diligent on this matter.

The Committee recognizes that interim measures will be necessary to address the most urgent needs of the Aboriginal language communities and the most obvious short-comings of the existing *Official Languages Act*. A section, entitled “Transitional Provisions”, gives recommendations on what interim measures should be taken immediately.

Provisions to be considered for an *Official Languages Services Act*

SCOGO RECOMMENDATIONS	GNWT RESPONSES
<p>1. Rewrite the OLA to get away from the federal model of legislation that does not match the demographic, socio-geographic, and political realities of the NWT</p>	<p>A Legislative Proposal (LP) will be developed where changes are identified as necessary to support the needs, priorities and circumstances of each official language. As with all LPs there will be a consultation process prior to drafting, then the LP will be presented to Committee for review and will move forward in the usual way. This could take 2 years to complete.</p>
<p>2. Lobby the federal government to allow the GNWT to create its own and more appropriate Official Languages legislation./regime</p>	<p>The Government of the Northwest Territories (GNWT) agrees that the federal government plays an important role in supporting languages. The GNWT will continue to work with the federal government and invite them to participate in a languages symposium that will be coordinated by the GNWT. The GNWT will keep the federal government informed of plans that emerge through the development of an Official Languages Strategy and implementation plans.</p>
<p>3. Create a service orientated Official Languages regime for the GNWT and commit to a regime aimed at saving the Aboriginal languages of the NWT</p>	<p>In this context the GNWT understands “saving” to mean the revitalization, enhancement, maintenance and modernization of aboriginal languages. The GNWT will develop strategies and initiatives that support each official language based on their needs, priorities and circumstances.</p>
<p>4. Acknowledge the different situations and needs of the Aboriginal languages and French in terms of legal recognition and protection by Canada, speaker base and available resources (financial, human, linguistic and capacity)</p>	<p>Agreed. Each official language in the NWT has different needs and priorities and face different circumstances. These differences will be accommodated to the best degree possible.</p>

Appendix A

<p>5. Recognize Aboriginal languages and French as Official Languages of the NWT including rights granted in reference to legal proceedings and proceedings in the Legislative Assembly</p>	<p>Various rights are stated in the Official Languages Act and those rights will be clarified through ongoing review of the OLA. Amendments to the OLA will be proposed where necessary.</p>
<p>6. Government retains the obligation to provide services and communication with the public in Official Languages with the following qualifiers:</p>	
<p>6.1. Determine service delivery priorities through consultations with the different language communities while recognizing the Government's capacity and resource limitations</p>	<p>This will be done in consultation with language groups and will be part of the GNWT strategic plan for the public service</p>
<p>6.2. Address Government capacity issues through comprehensive long-term planning (language service plans for each language) while acknowledging language community priorities</p>	<p>This will be part of the GNWT strategic plan for the public service</p>
<p>6.3. Create designated areas for Aboriginal languages in the communities where Aboriginal languages are indigenous (see Nunavut OLA, s.3 (3)) and add further provisions similar to the wording in the <i>Active Offer Policy</i> of the Francophone Affairs Secretariat in Manitoba, i.e.</p>	<p>The GNWT will consult with Aboriginal language groups to determine designation of language regions</p>
<p><i>A region is recognized as a designated area for [name of the language] by the Government of the Northwest Territories due to the concentration of Aboriginal Language speakers or the validity of the region's Aboriginal community, as demonstrated by the use of the Aboriginal Language in local schools, cultural organization, community groups, etc.</i></p>	
<p>Apart from acknowledging regions where Aboriginal languages are indigenous this provides for recognizing facts and trends of our modern NWT society including mobility and urbanization.</p>	
<p>6.4. Create designated areas for French, i.e., "A region is recognized ... by the Government ... due to the concentration of Francophones or the validity of the region's Francophone community, as demonstrated by the use of French in local schools, cultural organization, community groups, etc."¹</p>	<p>The GNWT will consult with the Francophone community to determine designation of areas for French.</p>

<p>7. Establish an Official Languages Secretariat (OLS) and place it with the Department of the Executive as a central agency that has the authority to implement the Official Languages Services Act government wide. Such an organizational structure could improve accountability and oversight of the implementation of the “<i>Official Languages Services Act</i>” as well as increase focus on language community consultations and relationship building. The reporting relationship of the Official Languages Secretariat should be directly to the Deputy Minister</p>	<p>The GNWT will examine organizational structural and oversight models that support the vision, goals and objectives that are identified through the development of an Official Languages Strategy and implementation plans.</p>
<p>8. The Government’s Official Languages Secretariat shall be sufficiently resourced, supported and empowered to fulfill the following mandate by:</p>	<p>In examining organizational structural and oversight models, the GNWT will identify and seek the required resources, supports and mandates needed to achieve the vision, goals and objectives of the Official Languages Strategy and implementation plans.</p>

Mandate of the Languages Commissioner devolved

<p>16. The implementation of our recommendations to create an Official Languages Secretariat and to strengthen Government's commitment to service oriented legislation makes the position of the Languages Commissioner no longer necessary⁵. Appendix A

<p>27. The proposed Aboriginal Languages Centre would provide increased support, development and sharing opportunities avoiding duplication and increasing the capacity, programming and resource development for each language community group. Ideally this would lead to a close and on-going working relationship between community language organizations and the Centre</p>	<p>The GNWT will examine different organizational structural and advisory models once the Official Languages Strategic Plan and implementation plans are finalized.</p>
<p>28. The proposed Aboriginal Languages Advisory Committee would provide opportunities for the communities to provide input in setting Government policy direction</p>	<p>As above</p>

<p>37. Conduct an education campaign for all GNWT staff on Official Language services and Aboriginal Language protection</p>	<p>Agreed</p>
<p>38. Provide an Official Languages service delivery and communication manual for all staff setting out minimum standards including for an "active offer"</p>	<p>Agreed</p>
<p>39. Extend the services offered at Single Window Service Centres (example: Manitoba)</p>	<p>Models for service delivery options are being examined with the intention that single window service centres will be piloted and evaluated.</p>
<p>40. The tracking of language shift every two to three years could be an important indicator to evaluate if the revitalization measures put in place are successful</p>	<p>Agreed</p>
<p>41. Ensure that the NWT Bureau of Statistics works closely with Statistics Canada to include all Aboriginal Official Languages of the Northwest Territories when collecting and reporting language information during the Census</p>	<p>The GNWT will bring this recommendation forward to Statistics Canada.</p>
