Executive Summary

The initiative to establish a new Government of the Northwest Territories (GNWT) Contract Registry, Reporting System (CRRS) and Contract Opportunities Website was a result of a number of operational and procurement related reviews and public consultations conducted by the GNWT. These reviews and consultations highlighted the need for clearer reporting on contracting in the interests of transparency, access to information, and to ensure compliance with reporting requirements under the Agreement on Internal Trade.

The objective of the CRRS is to provide a single comprehensive and readily accessible database from which information on all competitive and non-competitive contracts can be drawn. The purpose is to enhance the government's ability to collect, monitor, evaluate and report on its procurement activity thereby enhancing accountability and transparency in government contracting in accordance with the public interest and in compliance with the requirements under the Agreement on Internal Trade.

In accordance with Cabinet direction, the Department of Resources, Wildlife and Economic Development (now Industry, Tourism and Investment) was mandated to formulate and implement a central Government of the Northwest Territories (GNWT) Contract Registry, Reporting System (CRRS) to enable the GNWT to:

- (a) Evaluate trends to provide assurance that departments and applicable agencies comply with contracting regulations and policies; and
- (b) Advise the Financial Management Board (FMB) on this evaluation as well as on the total contracting activity throughout the Government.

The new system came into effect on April 1, 2004. A central listing of public tenders, proposals, and award results can now be found at www.gov.nt.ca/contractopportunities.

The GNWT Contracts Over \$5,000 Report includes all contracts for Goods, Services and Construction in excess of \$5,000 issued by the GNWT to businesses. Salaries and wages, non-commercial payments to non-profit organizations and individuals and grants, contributions and subsidies are excluded from the report.

The following information sections summarize the overall contract activity during the fiscal year 2009 – 2010:
